

Drill Operator

Competitive wages and sign-on bonus for qualified applicants.

Rockydale Quarries Corporation, an established aggregate producer, is seeking a Drill Operator at our Staunton location.

Applicant must be able to operate drilling machine to bore holes in various materials according to specifications; measure and mark patterns for drilling. Strong knowledge and experience with regulating speed of drilling machine, flow of water (coolant), and drilling speed required. Responsibilities will include, but will not be limited to, assisting with blasting operations, servicing and making normal operating adjustments to equipment, and other related production duties.

Previous experience of at least one (1) year or more of training or experience with similar or same equipment is required. Must be able to travel to additional quarry sites, with some overnight stays required. High school diploma or GED required. Must possess clean driving record. This is a mining environment and requires the ability to work in all types of weather conditions.

We offer a comprehensive benefits package including, paid time off, health, dental, and vision insurance, company paid life insurance, 401k/Profit Sharing fund, and other competitive benefits.

Applicants may apply in person or submit resumes as follows:
