

Field Service Heavy Equipment Mechanic - Apprentice

Rockydale Quarries Corporation, an established aggregate producer in Virginia, is seeking a Field Service Heavy Equipment Mechanic Apprentice for their Roanoke location. This position will work under general supervision and with a highly skilled mechanic to learn the trade and skills to troubleshoot, adjust, weld, repair and maintain diesel and gasoline equipment. Must have the ability to learn the skills necessary in order to be able to repair and maintain both off-road construction-type equipment and over-the-road vehicles, up to and including Class 8 trucks. Will also learn to maintain protective guards and safety devices on equipment, along with performing preventative maintenance services.

Knowledge of DOT Motor Carrier Division Safety Rules and Regulations as they pertain to over-the-road-trucks is a plus, but not required. Must be a safe, self-motivated individual willing to perform other related duties as required by job.

Candidate must have the ability to work well with others, and be able to work outside in field conditions during all seasons. Five (5) years of experience with similar or same equipment and/or machinery is required. Less than five years of experience may be considered if vocational/technical school training in the required field has been completed successfully. High school diploma or GED is required. Must be able to provide copy of clean driving record. Some out-of-town travel may be required within our territory.

Resumes may be dropped off in person or submitted by fax or email to:
