

Assistant Field Service Heavy Equipment Mechanic

Rockydale Quarries Corporation, an established aggregate producer in Virginia, is seeking an Assistant Field Service Heavy Equipment Mechanic Apprentice for their Broadway/Flatrock locations.

Responsibilities include assisting the Senior Field Service HE Mechanic in maintaining and repairing heavy-duty construction equipment and over-the-road dump trucks. Position may require travel in the Harrisonburg-Woodstock area, with travel to Charlottesville and other central-VA locations as necessary. Must be willing to work outside during all seasons. May also be required to perform other related duties, including but not limited to operating haul trucks and heavy equipment as needed, and at times may be required to work out of town at other Rockydale locations. Must be a self-starter and safety oriented.

Previous experience of at least 2-4 years of training and/or experience in a similar industry or with same equipment or machinery required. High school diploma or GED required. Must have a clean driving record and be able to provide a current copy upon request.

Employees of Rockydale Quarries are offered a competitive benefits package which includes health insurance, voluntary dental and vision insurance, paid time off and more. We also offer a 401K and Profit Sharing program which includes a company match.

Resumes may be dropped off in person or submitted by fax or email to:
