

Quarry QA/QC Lab Tech

Rockydale Quarries Corporation, an established aggregate producer, is seeking a QA/QC Lab Technician to operate the quality control program for our Glade Hill location. Duties include, but are not limited to, collection of crushed stone and manufactured sand, performing screen analysis on samples, preparation of reports, and coordinating quality control activities with federal and state agencies.

Must possess excellent administrative, customer service, and computer skills. This position will also serve as back-up to the Scale House which is responsible for weighing all trucks/vehicles hauling company product, along with other miscellaneous duties as required by job. The successful candidate should have the ability to interact with vendors on purchase orders and be able to follow through on timely completion of the process.

Previous experience of at least one year in the same or similar field is required. Must have high school diploma or GED, along with a clean driving record. Ability to work overtime as needed is required.

A comprehensive benefits package is provided including paid-time off, paid holidays, health/dental insurance, life insurance, and a 401K/Profit Sharing plan.

Interested applicants may apply in person or submit resume by email as follows:
